

Laguna Folding Arm Awning

With its sleek design and smooth, reliable motorised or manual retraction system, the Laguna by Soltex is the ultimate retractable folding arm awning.

Perfect for those who enjoy outdoor living, the Laguna provides effective temporary external shading for those times when the heat of the sun is at its peak. The Laguna creates a cool and shady outdoor entertainment area in minutes, providing protection from intense heat, glare and harmful UV rays.

Its slimline head box gives the awning a neat, compact appearance when retracted and the reliability and durability of the Sunshade ensures you will make the most of your outdoor space for many years to come.

Extend the Laguna from glass windows and doors to protect indoor spaces from glare and heat. By helping to keep interiors cool, you can reduce your reliance on airconditioning.

Available in both manual (smaller sizes only) and motorised operation. Your motorised Soltex Laguna folding arm awning comes with a world leading Somfy RTS motor and slimline Situo remote. Optional Somfy accessories include wind, sun and rain sensors, app control or integration into a home automation system.
